PRODUCT DECK

RankFlowHQ

Type a keyword, get a researched, SEO-ready article: RankFlowHQ reads what already ranks on Google, then writes a cited long-form draft in about 3 minutes.

app.rankflowhq.com · Harsh Lariya

SEO writers stitch together prompts, keyword tools, SERP checks and docs. Chat tools write fluently but don't research what ranks, so drafts are generic and slow to fix.

02 · WHO IT'S FOR

IDEAL CUSTOMER PROFILE (ICP)

Bloggers, small businesses and SaaS content teams, and agencies or freelancers writing for clients.

JOB TO BE DONE (JTBD)

"When I need an article that can rank, give me a researched, cited first draft so I only add my own expertise."

03 · VALUE PROPOSITION

Type a keyword, get a researched, cited, SEO-packaged article in about 3 minutes, built from what already ranks on Google.

ALTERNATIVES USERS HAVE TODAY

- ChatGPT
- Surfer SEO
- Jasper

01 Keyword → 02 Read what ranks on Google →

03 Questions people ask → 04 Outline → 05 Cited draft →

06 SEO title & meta

NORTH STAR METRIC

Articles published by active users per week

Publishing, not generating, shows the output was good enough to use.

INPUT KPIS

- Sign-up → first article (activation)
- Articles per active user
- Free → Pro conversion
- Edit distance before publishing

GO-TO-MARKET (GTM)

- Free tools hub as top of funnel
- Education Hub as a live showcase
- SEO blog

MONETISATION

Freemium: 5 free articles with no card, then Pro at $49/month for unlimited articles and deeper research.

A pipeline, not a chat box

Trade-off: Less flexible, but repeatable quality at volume.

Grounding with citations

Trade-off: Slower and costlier per article, but fewer chances to invent facts.

One job on the homepage

Trade-off: Hides other features, lifts first-run clarity.
